ABOUT US

Founded in 2010 in Dubai, City Cool Trading has significantly contributed to the nation's growth, establishing itself as the leading distributor of refrigeration, air conditioning equipment, and accessories in the UAE.

We take pride in our esteemed position in the UAE market, achieved through our commitment to superior quality products and exceptional customer service. Our extensive range of refrigeration and air conditioning solutions, combined with our unwavering dedication to customer support, ensures we meet the dynamic demands of our clients. City Cool Trading stands as a trusted partner, delivering excellence in every cooling solution we provide.

COMPREHENSIVE REFRIGERATION SOLUTIONS

Cold Chain Segments

Blast Freezers & Chillers

Refrigerated Transport Systems

Doors & Panels

Centralized Refrigeration Systems

Service & Maintenance

City Cool Trading is dedicated to providing top-tier refrigeration solutions, ensuring quality and reliability across all our offerings.

COLD CHAIN SEGMENTS WE SERVE

City Cool Trading specializes in providing comprehensive cold chain solutions across various segments, ensuring the integrity and quality of your products from storage to transportation. Our expertise extends to the following areas:

MEAT & FISH:

We offer advanced refrigeration solutions to maintain the freshness and nutritional value of meat and fish. Our systems ensure optimal temperature control and hygiene standards, preventing spoilage and extending shelf life.

DAIRY PRODUCTS:

Our tailored cold storage solutions for dairy products maintain the perfect temperature and humidity levels to preserve taste, texture, and quality. From milk and cheese to yogurt and butter, we ensure your dairy products stay fresh and safe.

FRUITS & VEGETABLES:

City Cool Trading provides specialized refrigeration systems for fruits and vegetables, preserving their nutritional content and extending their freshness. Our solutions minimize moisture loss and prevent over-ripening, ensuring that produce reaches consumers in peak condition.

CONFECTIONARIES:

We understand the delicate nature of confectionary products and offer precise temperature-controlled environments to prevent melting and degradation. Our systems are designed to maintain the ideal conditions for chocolates, candies, and other confectioneries.

PHARMACEUTICALS:

Our cold chain solutions for the pharmaceutical industry ensure the safe storage and transport of temperature-sensitive medications and vaccines. We adhere to strict regulatory standards to guarantee the efficacy and safety of pharmaceutical products.

BLAST FREEZING AND CHILLERS TECHNOLOGY

Rapid cooling and freezing systems

Freezing is a widely used method for preserving food items, but it can affect the quality, nutritional value, and visual appeal of certain foods. Therefore, selecting the right process and system for freezing is crucial. Blast freezers stand out because of their rapid cooling and freezing capabilities. This efficiency not only saves time but also helps preserve delicate food items, such as fish, which may lose quality during conventional freezing methods. Furthermore, blast freezing allows foods to be defrosted to a state that closely resembles their original freshness. Blast freezers are also ideal for products with irregular sizes and shapes.

City Cool Trading has a highly skilled team to meet your blast freezer and chiller needs, understanding the complexities involved in achieving optimal results. To ensure efficiency and reliability, the size and capacity of evaporators and refrigerating

machines must be precisely balanced. Designing a versatile and flexible blast freezer for any application requires careful planning. For instance, if a room is improperly sized or overloaded, the air temperature rises, extending freezing time and increasing the outlet pressure of the refrigeration compressor. Without adequate safety measures, this can lead to serious compressor damage. Underloading, while less critical, still increases operational costs.

DISPLAY CHILLERS, CUSTOM CHILLER ROOMS, OFFSHORE REFRIGERATED CONTAINERS AND ICE PLANTS

City Cool Trading offers premium display chillers, custom chiller rooms, offshore refrigerated containers, and flake and block ice plants. Our solutions are tailored to meet unique space and capacity needs, ensuring optimal visibility, ideal temperatures, and superior quality for retail, hospitality, and industrial applications. Trust our expert team for efficient and reliable refrigeration solutions.

REFRIGERATED TRANSPORT SYSTEMS

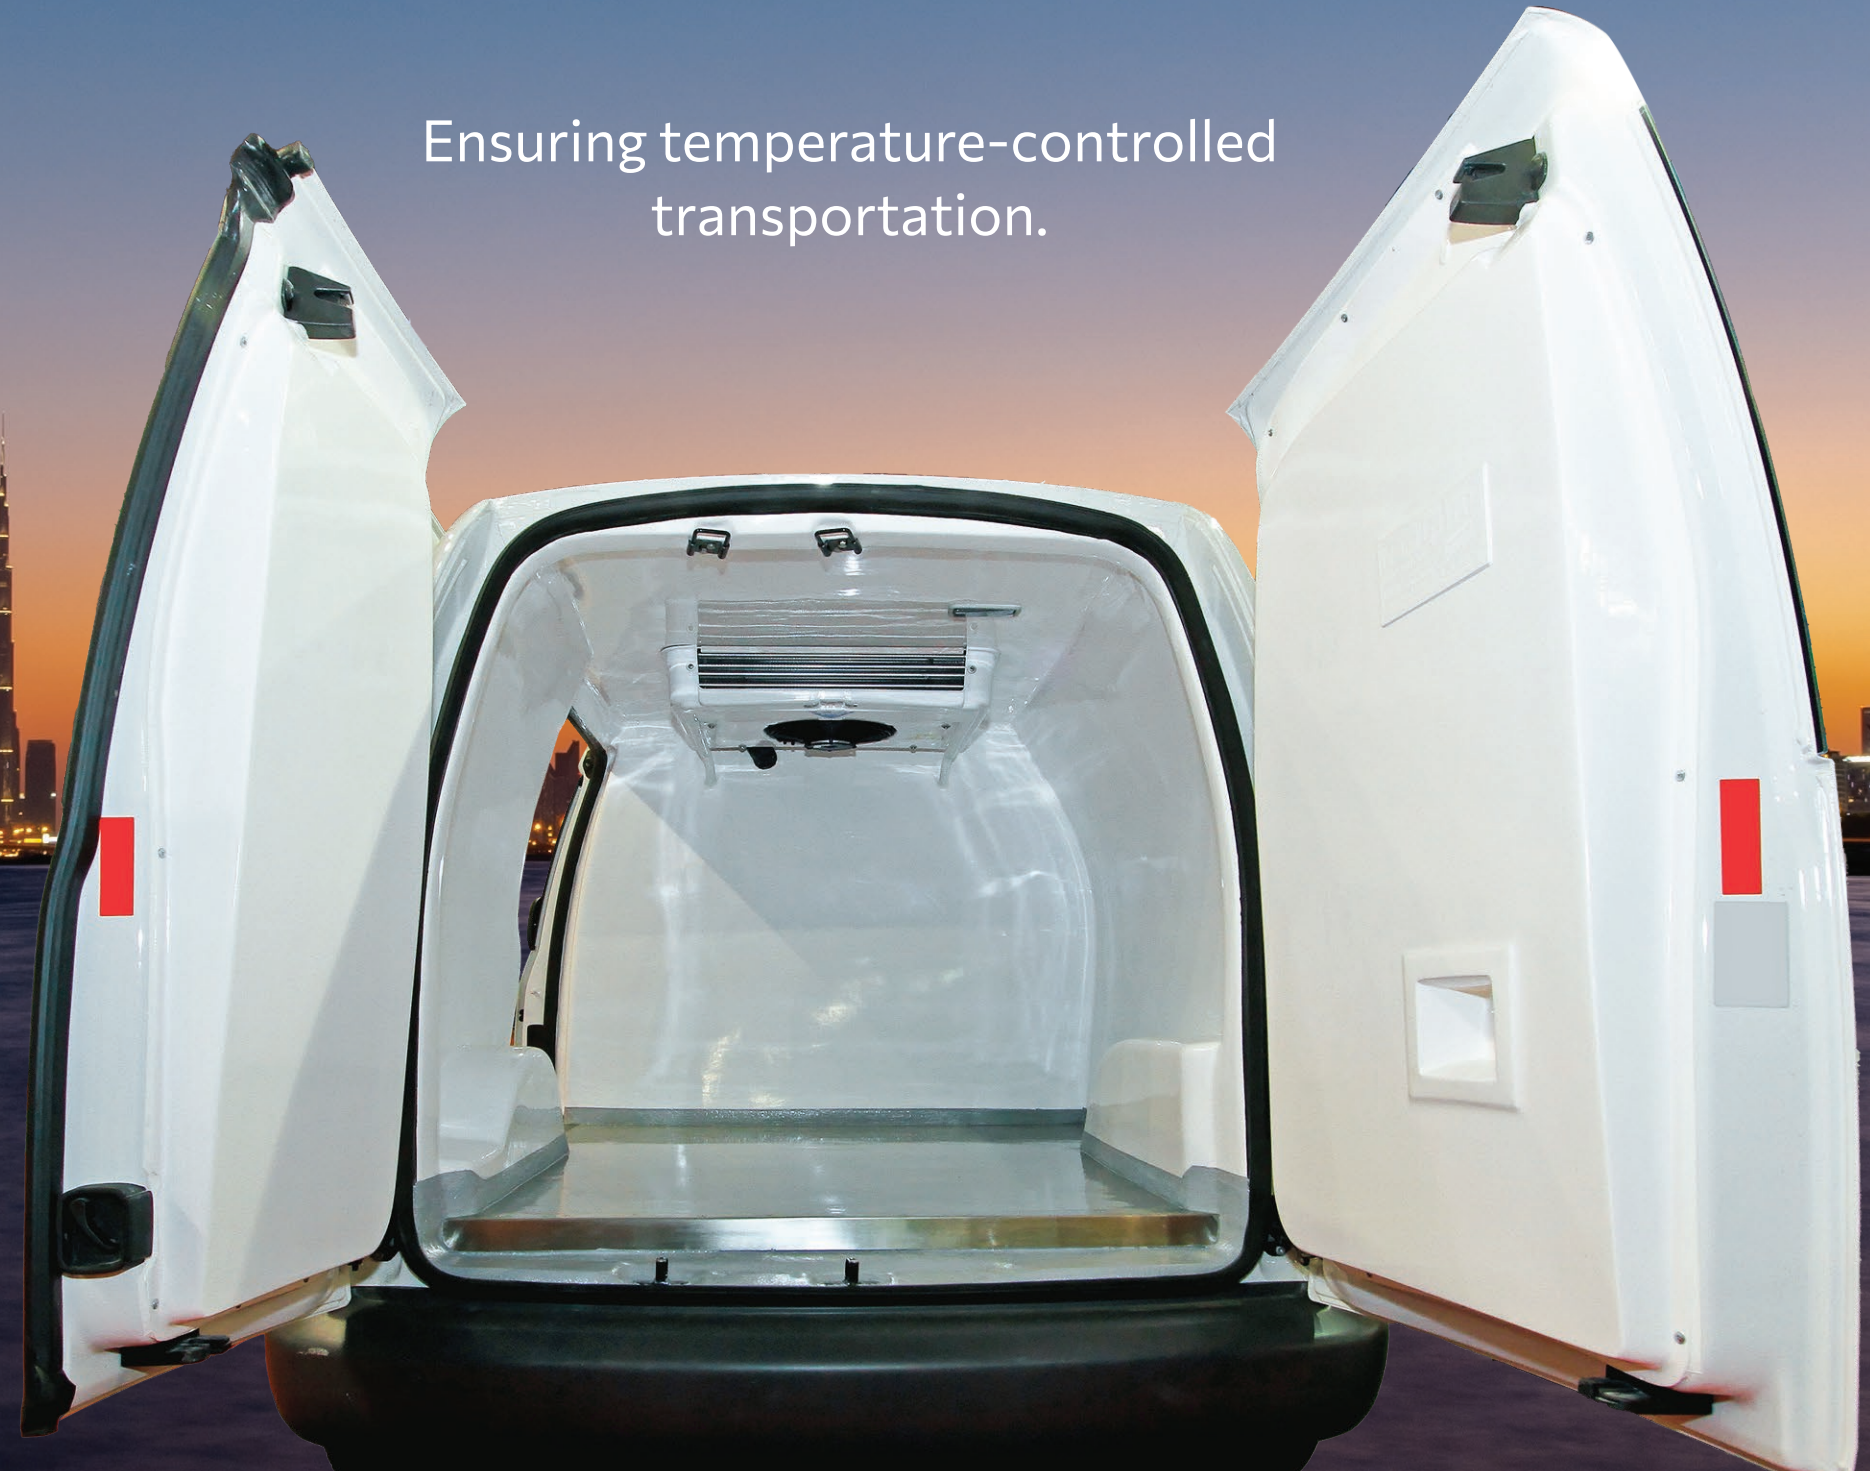

Transporting manufactured systems poses significant challenges due to the risk of damage from high humidity, temperature fluctuations, shock, and vibrations. City Cool Trading offers specialized Refrigerated Transport Systems designed to mitigate these risks.

Our transport solutions feature special bodies with movable partitions, enabling multi-temperature applications with single, double, or triple rear or side doors. We accommodate various body types, including PVC, Platisol, Leather Grain, Smooth Pre-Painted Steel, Stainless Steel, and GPR Skins.

City Cool Trading is your best partner for van insulation work and cold storage systems, providing reliable and efficient solutions for all your refrigerated transport needs.

Ensuring temperature-controlled
transportation.

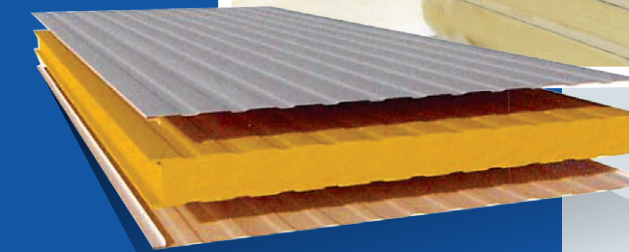

DOORS AND PANELS

High-quality components for cold storage facilities.

DOORS:

City Cool Trading offers premium polyurethane insulated doors, available in both manual and electric models. Options include hinged and sliding doors, all equipped with:

- ❄️ **Safety release handles**
- ❄️ **Heater wires**
- ❄️ **Gaskets**
- ❄️ **Aluminum or stainless steel railings**

Trust City Cool Trading for reliable, high-performance doors and panels for all your refrigeration needs.

Approved by:

PANELS:

Our insulated panels, made with eco-friendly, CFC-free foaming agents, provide superior thermal insulation. These panels are:

- ❄️ **Non-toxic and non-irritating**
- ❄️ **Resistant to fungi and mildew**
- ❄️ **Classified as B2 according to European fire retardant standards**

Customization:

Panels can be tailored to meet specific project requirements and budgets, ensuring optimal performance. They feature specially designed tongue and groove joints secured by cam-locks, ensuring total airtightness and enhancing the structure's strength and stability.

CENTRALIZED REFRIGERATION SYSTEMS

Integrated
solutions for
large-scale
refrigeration
needs

City Cool Trading is proud to introduce our Power Pack System, designed for high-capacity commercial and industrial applications. This cost-effective solution is assembled with high efficiency, ensuring easy installation and low maintenance. Engineered for uninterrupted high-level performance, our system features an advanced central monitoring system that allows clients to control the plant remotely from anywhere in the world.

Utilizing the GSM network, City Cool Trading provides timely and precise service both countrywide and globally. Our Power Pack System offers unparalleled reliability and convenience for all your refrigeration needs.

AIR CONDITIONING AND REFRIGERATION SPARE PARTS

City Cool Trading is a leading UAE distributor of high-quality air conditioning and refrigeration spare parts. We offer a wide range of components, including compressors, condensers, evaporators, thermostats, filters, fans, motors, refrigerants, and fittings. Sourced from top manufacturers, our parts ensure durability and optimal performance.

Our expert team provides technical support and customized solutions, ensuring seamless integration and reliability. With competitive pricing and a vast inventory, we guarantee immediate availability and quick delivery. Trust City Cool Trading for all your spare parts needs, and contact us today to learn more about our products and services.

Scroll Compressor ZR/ZP/ZW/ZB Series

COLD ROOM ACCESSORIES

OUR PRODUCT LIST INCLUDES:

- ❄ Air Conditioning Units & Accessories
 - ❄ Refrigeration Units & Accessories
 - ❄ All Types of Kitchen Equipment Accessories
 - ❄ Refrigerant Gases
 - ❄ All Types of Compressors
 - ❄ All Types of Fan Motors
 - ❄ Blower Motors
 - ❄ All Types of AC Fan Blades and Blowers
 - ❄ Air Conditioning and Refrigeration Digital Controls
 - ❄ MAP Gas with Hose Torch
 - ❄ Insulated Panels
 - ❄ All Types of Heaters
 - ❄ Air Curtains
- ❄ Suniso Oil
 - ❄ Door Hinges
 - ❄ Cold Room Door Locks
 - ❄ Door Accessories
 - ❄ PVC Curtains and Fittings
 - ❄ Welding Rods and Equipment
 - ❄ Copper Rolls and Copper Fittings
 - ❄ Rubber Insulation
 - ❄ Hot Plates
 - ❄ P&M Tools
 - ❄ Uniweld
 - ❄ Imperial

SERVICE AND MAINTENANCE

Comprehensive support to ensure optimal performance and longevity of your refrigeration systems.

City Cool Trading boasts a team of highly qualified and experienced technical professionals dedicated to delivering top-notch installations. We offer 7/24 maintenance services to ensure all City Cool Trading installations remain in optimal condition, providing our customers with peace of mind and reliable operation.

Our team constantly monitors sensitive installations with large storage volumes and conducts regular check-ups to guarantee flawless performance. With City Cool Trading, you can trust that your refrigeration systems will always function efficiently and effectively.
